

TOURCUE ORGANIZER GUIDE

Registration & Ticketing

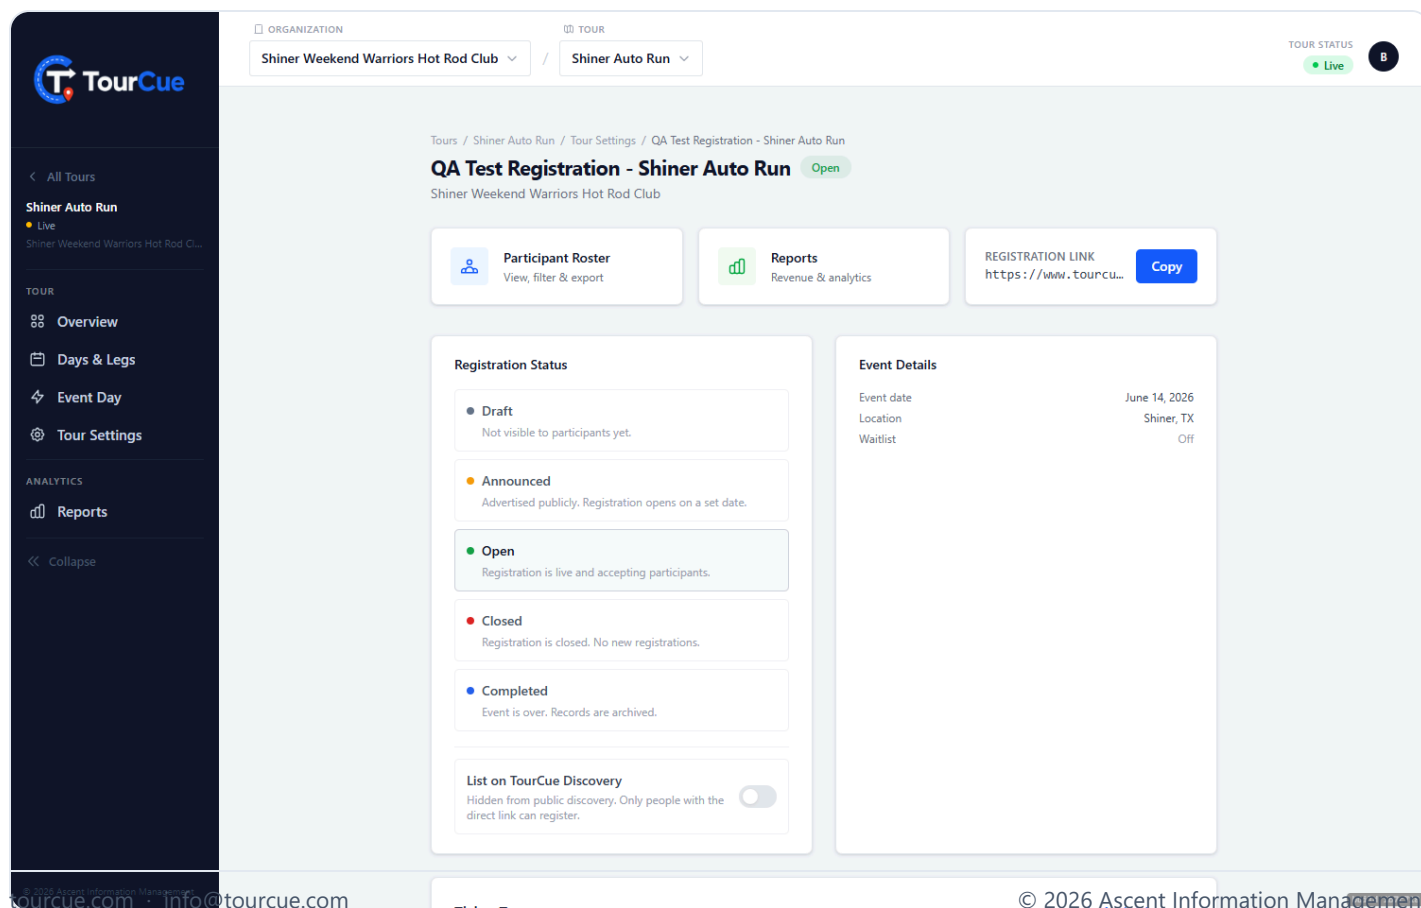

On Touring and Grand Touring, the registration engine gives you tickets, payments, a live roster, and waiver evidence.

1 Tickets & Stripe payouts

Define ticket types with a price and capacity. Connect your Stripe account for payouts — the money flows to you, with TourCue's \$5-per-participant platform fee coming out automatically.

2 The participant flow

Participants sign up through a guided form — tickets, driver details, emergency contact, vehicle, then a review — and check out through Stripe. Vehicle details are optional and editable up to tour day.

The screenshot shows a registration form for "QA Test Registration - Shiner Auto Run" powered by TourCue. The event is on Sunday, June 14, 2026, in Shiner, TX. The form has five steps: 1. Tickets, 2. Driver, 3. Emergency, 4. Vehicle, and 5. Review. The "Tickets" step is active, showing a "Select your tickets" section. It lists a "Driver Ticket" for \$25.00, which is "1 included". A summary table shows "Driver Ticket x1" for \$25.00 and a "Total" of \$25.00. A note states "No additional fees at checkout." and a blue "Continue" button is at the bottom.

3 Roster & evidence

Your roster is searchable and exports to CSV. Every registration captures an immutable evidence record — the waiver text, timestamp, and payment summary — for chargeback defense.
