1 Registration & revenue

Headline counts — confirmed, waitlisted, and how many still need vehicle details — plus total revenue, matching what landed in your Stripe account.

2 Activity & breakdown

A 30-day registration activity chart shows when sign-ups arrived, and a per-tour summary lays out status, fill rate, and revenue so you can compare events side by side.

3 Export

Every table exports to CSV — for your spreadsheet, your club newsletter, or your insurance renewal.
